From The Principal's Desk

We are pleased to introduce a transparent prospectus with a view to cater the needs of our students in accessing academic guidelines and information of our college at ease. The vision of our college is not only to impart syllabus oriented teaching but also engage them with the co-curriculum activities, and thus enabling them to cope with the adverse circumstances of life, and emerge as a champion of life. Our efforts are to instill a quality education in our students so that they could serve their society and nation with the help of the obtained knowledge. In this direction, we have moved forward from a traditional journey to the digitalization of academic activities. We have recently introduced Smart Classrooms, Language Lab, Swaym Lab for our students to extract the crux of knowledge within the short span of time, and hence they could not feel ashamed of while competing with mainstream/urban students. We have also introduced several need base courses in our college so that our students may get employment according to their skills.

The objective of introducing the prospectus is to acquaint our students with the basic guideline of admission procedure about newly implemented FYUP under CBCS academic as well as administrative rules and regulations. This prospectus has been designed in a student-friendly manner. It aims to address the confusion and problems of our students while going through admission process. Students, at a glance, can choose their subjects easily without committing any error. In fact, the prospectus will serve as self-guide to our students.
